

A Corporate Training Company

Aster Training is a provider of innovative corporate training courses to UK and European based manufacturing and service companies.

Our business training courses combine modern theory with a practical interactive delivery style enabling delegates to take an active part in their 'learning' experience. Role plays, business games and facilitated group exercises are used to make the courses fun, challenging and enjoyable. We aim to provide your company with a 'one stop shop solution' for your corporate training requirements.

At Aster Training we try where possible to use real examples from the delegates' own working environments to ensure they can relate to the information provided.

Course content is continually updated by experience gained from course feedback received from our clients and the Interim Management arena enabling us to keep the training courses fresh, vibrant and representative of best practise throughout industry. {mosmodule phpinc=CourseMonthFeature.php,42,35}

Aster Training is a trading division of Aster Interim Solutions Ltd, a provider of Interim Management and career Interim Managers to both public and private sector UK companies. Training Delivery Methods Our training courses can be delivered by a variety of methods. This includes on-site, open, e-learning, distance learning, training webinars and 'hands-on' practical workshops. Aster can also provide on-site business process re-engineering support if this is your preferred route to continuous improvement.
