5S and 7 Wastes Training Course

Price: £245.00

Course Overview

5S, also known as 5C or CANDO is concerned with the elimination of the '7 wastes' by the introduction of world class workplace organisation, visual management and immaculate housekeeping. 5S is also sometimes known as **6S** where the sixth S stands for Safety.

What are the 7 Wastes? By reviewing just 7 wastes in our business, we can account for over 80% of the waste we are likely to find in both an office and factory environment.

5S is a set of tools originally employed by Japanese manufacturing industry to form the bedrock of a continuous improvement culture - a good place to start for an organisation in the process of adopting a lean culture.

This one day 5S and 7 Wastes training course is ideally suited to personnel from all disciplines in a manufacturing environment.

This is a highly interactive, practical course where delegates get the opportunity to **manufacture** 'real' products during the workshop in both a **PRE-5S** and a **POST-5S** environment to demonstrate what can be achieved by this lean tool.

What you will learn

At the conclusion of the 5S training course each delegate will be able to:

- Identify the 7 Wastes in their own working environment
- Understand the benefits of working in a 'clutter' free environment
- Recognise the usefulness of signage, colour and location as part of a visual management programme
- Design and implement a 5S audit programme

- Provide the right conditions for 5S 'sustainability'
- Generate a structured programme to eliminate waste
- Implement a review process

Course Content

The 5S and 7 Wastes training course covers the following topics:-

- 5S - Definitions
- In depth review of the benefits to an organisation
- 7 Wastes – Learning 'how to see' waste
- Creating a culture for change
- The 5 steps to improvement
- Creating a Visual Workplace
- Introduction of a 5S audit process
- How to implement 5S
- Selection of a pilot project
- How to sustain a 5S programme
- Practical review of current workplace (In house two day course only)
- 5S Project Implementation & Review

This 5S training course uses practical demonstrations to re-enforce the theory. As part of the course each delegate will get the opportunity to carry out an actual 5S audit (In house course only).

The 5S and 7 Wastes training course is limited to a maximum of twelve delegates. Course costs cover the training sessions, a comprehensive set of course notes, lunch, refreshments and an attendance certificate.

This is a non-residential training course. This course can be delivered in-house if required. For further information, contact Aster Training on **01296 720281** for a Free Consultation to discuss your training requirements.

Cost is exclusive of VAT which is chargeable at the current rate. 5S training course prices are correct at the time of publishing, but may be varied in line with market conditions from time to time.
