

Aster Training

Aster Interim Solutions Limited

ESD and EOS Prevention

Price: £900.00

Course Overview

A bespoke one day site training course designed for all personnel who work within the Electronic Manufacturing Industry. The training course content is formulated from The Association Connecting Electronic Industries (ICE) and the European Specification of BS EN 61340-5-1:2001. Bespoke requirements of delegate companies can also be added to this lesson plan. This training will allow your company to instigate and develop policies and strategies concerning ESD and EOS policing and prevention.

What you will personnel learn

At the conclusion of the course each delegate will be able to appreciate:-

- The importance of ESD and EOS prevention
- The importance of ESD and EOS precaution
- The back ground to ESD and EOS
- How ESD and EOS affects all employees
- The damage caused by ESD and EOS
- Adherence to ESD/EOS Strategies and Policies
- Recommended practices for Handling Electronic Assemblies

Course Content

The Electrostatic Discharge and Electrical Overstress prevention training takes the following format:-

- Course Introduction
- Video Presentation

- Presentation (PowerPoint)
- Visual Demonstration
- Delegate Participation
- Multi Choice Exam
- Course Summary
- Compilation of Course Critique

Each training session is limited to a maximum of twelve delegates and will last approx 90-120 mins, dependant upon questions. A maximum of 60 delegates can be trained in a working day.
